

AP Human Geography: Latitude & Climate Zones

* Zones = Regions

Name: _____

Date: _____

Period: _____

APPLICATION -

This will give deeper understanding of latitude and show that you understand the basic concepts. For more practice, get a map of the world and explore places you are interested in, check climate & vegetation and determine latitude zone.

STEP 1: Look up the following absolute locations, list the city/country, and determine its latitude zone (HL, ML, or LL)

STEP 2: Go to <https://www.cia.gov/library/publications/the-world-factbook/> and open ECONOMY section and scroll to AGRICULTURE PRODUCTS. List the products. Make observations.

Absolute Location	City, Country	HL, ML, LL	Agricultural Products
40,7° N, 74° W	New York, USA	ML	Hay, soy, wheat, apples, berries, cabbage, corn, beef, pork, poultry, dairy & forest products
5.15° S, 119.45° E			
22.9° S, 43.2° W			
51.5° N, 0.12° W			
37.8° S, 144.95° E			
70.66° N, 23.69° E			
8.96° N, 38.75° E			
35.78° N, 139.89° E			
31.75° N, 35.22° E			
21.36° N, 39.85° E
