

Mandy's Rants

Mr. Perales is a very uptight person. He is a very rude, mean type of guy. There are days that he could be mean or nice. Yes, everybody thinks he's so cool so what. HE'S MEAN!!!!!! Look out for his bad side. Perales is on a roll on being MEAN. And he does not like to be poked in the stomach.

Generation's Flaws

BY: ADRIAN CASTELLANOS

What is going on with us? Our generation has many flaws that are annoying or just plain stupid. For example, if I wanted to be called an animal, it would not be a DAWG, instead a kangaroo! Also, quit trying to flow or rhyme because quite frankly you are not that good. Next, please don't wear your pants down on your knees. Also, buy a shirt that actually fits, and not one that is 30 times bigger. Now, if you are a poser, get real!

If you are into accessories, don't over do it and wear bracelets that will cover your entire arm. If you are spoiled, don't show off because a lot of people don't like that. (And they might steal something from you).

These are only a few flaws that are occurring today. If you are guilty of doing these things, then stop! If you see others doing them, then stop them! Hopefully, together we will make the day go just a little better.

PICTURE FOUND ON WWW.GOOGLE.COM

Minutemen, are they the farmers-turned-soldiers who in a minutes notice were ready to fight during the American Revolution? The answer is no!

The minutemen we speak of are regular people whose goal is to help the government prevent attacks on American soil. Most of these minutemen are Anglo American with the exception of a couple of borderland owners who are Hispanic. However, every time the minutemen come out in the news, it seems like all they do is help the Border patrol catch illegal Mexican nationals.

If these minute really want to help, they should join the border patrol. Do it the right way, instead of parading around with weapons ready to "hunt" these Mexican nationals down. Are these people really trying to protect America from terrorist attacks or are they patrolling the borders to stop illegal immigrants? It kind of seems like they are doing this as a hobby.

OCTOBER

DATES

Spotlight Shines on You

Reyna Vallin is one of this month's recipient of the Buzz spotlight. Using a very mild voice, Reyna displayed a lively attitude as she listed her hobbies, but for some reason claims to be shy. She enjoys watching television, hanging out with her friends, and chilling out at the mall. On a nice day you might find her listening to the radio and running at the track. She claims to listen to all kinds of music, but never could learn to appreciate hard rock. She dislikes guys who are arrogant, but likes guys that dress nicely. Congrats, the BUZZ spotlight shines on you.

The Student Spotlight also shines on Salome Castillo. In his leisure time he likes to use the Internet, spend time with his family, and play football with his cousins. His favorites include: Pizza, his family, school (he thinks it's not that bad), and playing video games such as *Star Wars Battle Front*. Something different and unique about him is that he can make a squeaky voice, like a baby. His pet peeve are cats that are not housebroken. His extra-curricular activities include Football and Track. Finally, he finds smart and athletic girls to be attractive. So congratulations Salome, for the BUZZ spotlight shines on you.

Homecoming Festivities This Week

As you might know because of the posters and mums, homecoming is this weekend. Our very own eighth grade football team will be playing their rivalries, the Mercedes Tigers.

Both teams will be very eager, which should make for a very intriguing game. Especially since both teams are undefeated and yearning to be district champs. The J.R. High band will be there to support our team. Aside from the game, there will also be the crowning of the homecoming king and queen. Participating in the elections were our very own April Benavidez, Arielle Caraveo, Ashley Rubalcada, and Deeundria Jilpas for queen. For king, the candidates include Jordan Casares, Alex Garcia, and Nicky Rios. May the best person win, good luck Stingers!!!

Weird FACTS

BY: MICHELLE AGUERO

• Bees have often been used as weapons of war. King Richard I of England, Richard the Lionhearted (1157-1199), had his troops hurl beehives at their enemies.

• The country of Japan has "nose tombs" containing 20,000 noses that were cut from the faces of Koreans and brought home as trophies during a 16th century Japanese invasion of Korea.

• Nike, the modern sports gear manufacturer, took its name from Nike, the ancient Greek goddess of victory.

Myrah's TOP FIVE

Boys Vs. Girls

In last week's issue I listed the top 5 differences between boys and girls; but I kind of pick on the boys. In this week's issue I am going to list the differences again and I have to be fair. So this time it is all about the boys.

Sorry girls I still love you ALL!

5. Boys are obsessed with cars and football. Girls are obsessed with boys who always think and talk about cars and football.

4. Boys know how to keep a secret. Girls know how to spread a secret.

3. When boys fight, they fight with fists and it lasts only one day. When girls fight, they fight with words, and it lasts forever.

2. The most important thing in a guy's life is Friday night football. The most important thing in a girl's life is her cell phone.

1. Girls take forever to get dressed; but somehow boys end up looking better.
